

REPORT.

Of the Free Union School of Stroudsburg, for September.

In every study except Spelling, a PERFECT recitation is marked 1; GOOD 2; INDIFFERENT 3; BAD 4; VERY BAD 5; FAILURE 6. Each recitation is thus marked, and the above is the average for the month. In Spelling the number at the left indicates how many were correct, that at the right incorrect. Thus 127 16 means 127 right and 16 wrong. If a Scholar's record in Geography for one week, was Monday 1; Tuesday 5; Wednesday 1; Thursday 2; Friday 4; then the average would be 2.6 (two and six tenths). Those marked thus * study Algebra. In the number of days the 1/2 means 1/2. Thus, 17 1/2 means 17 1/2.

During the month we had but thirteen visits, but as fall work and election will soon be over, we hope that parents then will be able to find time.

The irregularity of attendance is a very great obstacle in the way of the children's improvement. But few parents have ever carefully thought of it. "A day now and then" they say "is surely of but little importance." And yet these same persons will discard any apprentice who is absent one half, one third, or one fourth of his time, because as they say (and truly too) "he can never make a good workman. But as my space is now limited I shall in the course of a few weeks express myself more fully, and will now conclude with saying that, if you wish your children to improve as they should, you must send them regularly every day, and take

some interest in their lessons at home. Without you do this the best of teachers, apparatus, and houses will fail.
